Performance Outcome Measures

Performance outcomes are measures that indicate how well the department/division's objectives were accomplished. Outcome measures indicate the quality of effectiveness of a service and are usually associated with a goal for each measure.

Notes: "Live Release Rate" is calculated by dividing the number of animals returned to their owners, or adopted by a new owner, by the total number of animals impounded. Asilomar Accords is used to determine the Live Release Rate. See www.asilomaraccords.org for guiding principles, definitions, statistics, and formulas.
