

# Pedestrian/Equestrian Accommodation

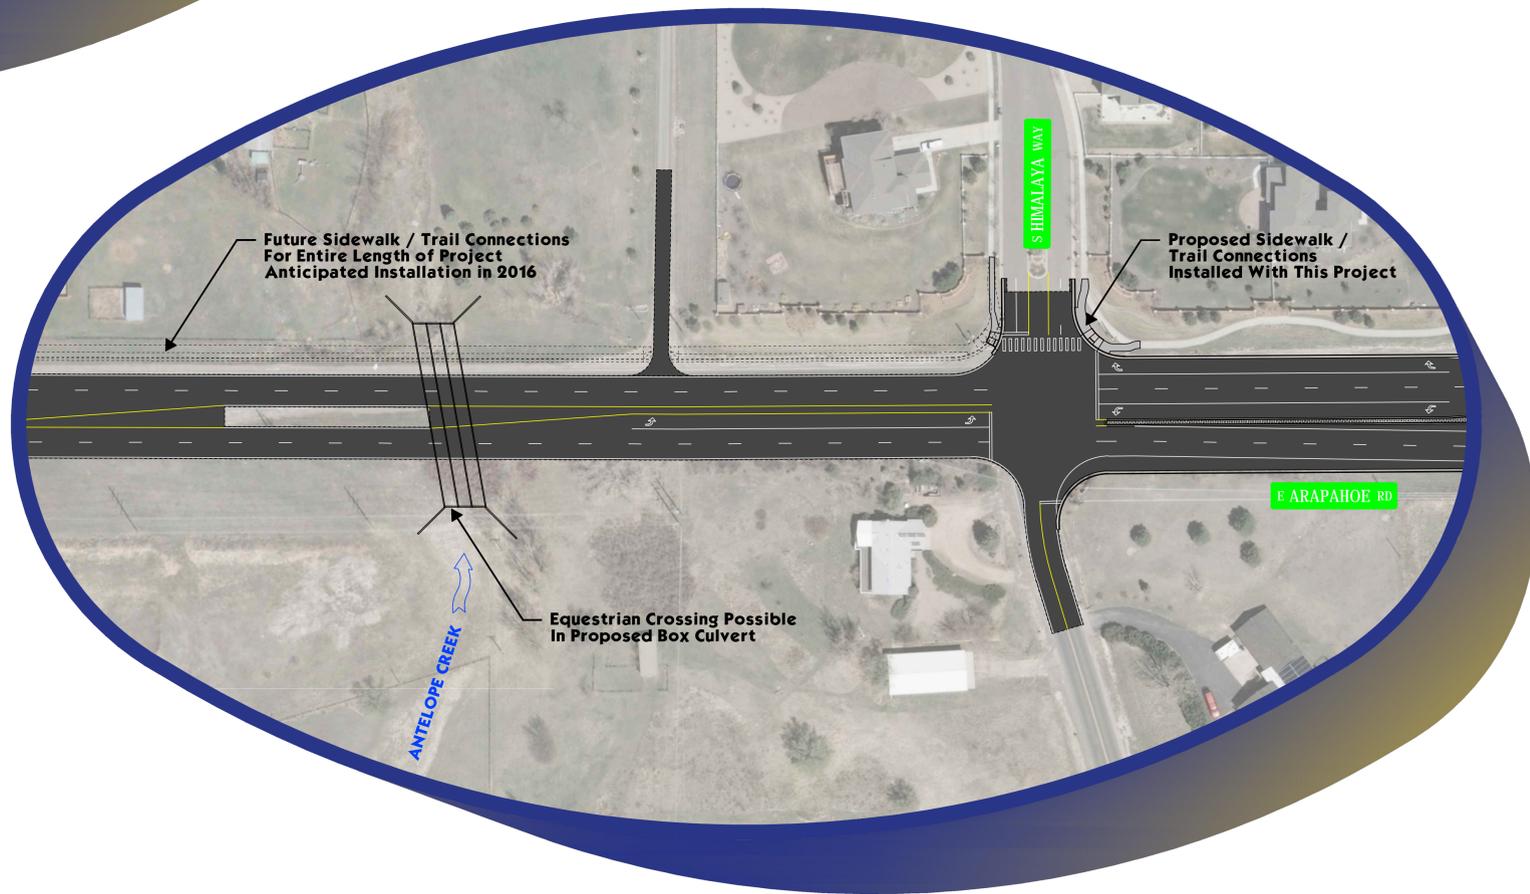

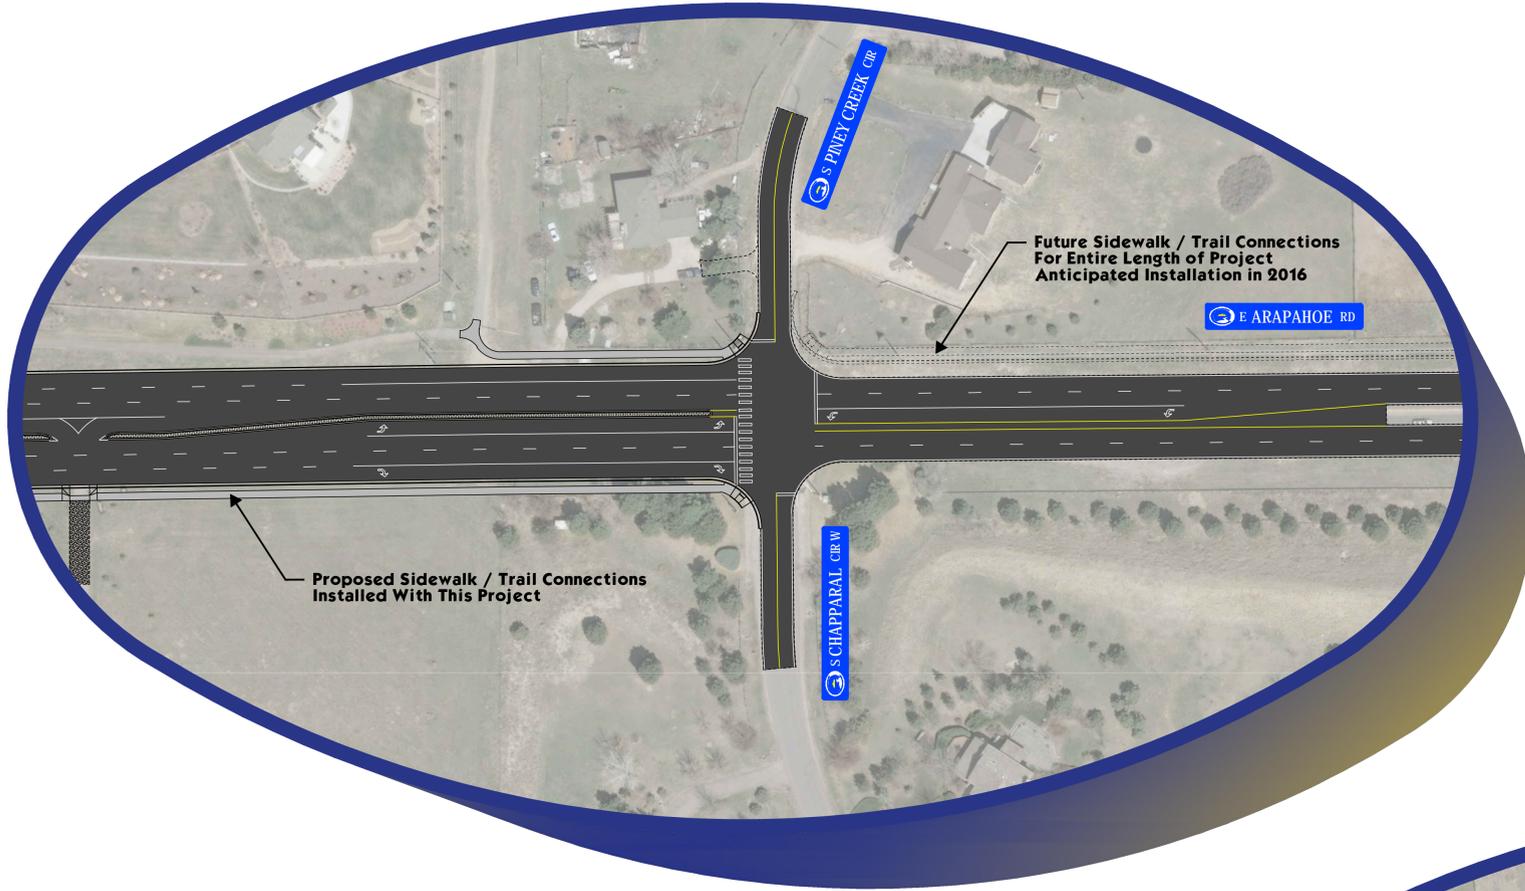

## ◆ Is the City installing the sidewalk/trail as part of the road-widening project?

- ◆ The City plans to install a sidewalk/trail on the north side of Arapahoe Road in 2016 after the road is widened
  - The sidewalk/trail will be separate from roadway construction to enable the use of open space funds

## ◆ What about equestrian crossings?

- ◆ Equestrian crossings under Arapahoe Road are not included in the project
  - The box culvert at Antelope Creek will be large enough to allow a future equestrian crossing
  - If a regional trail develops in the area, the crossing can be retrofitted to accommodate an equestrian crossing and other regional trail users

# ARAPAHOE - Waco to Himalaya Pedestrian / Equestrian Improvements

**WORK IN PROGRESS**
