

Technology in the Large Conference Room

Using the Laptop?

- Turn on the television
- Verify the laptop is powered on (you may need to open lid and power on)
- Using the television remote, verify that the Input is HDMI1 (Hit the Input button and change Source)
- Turn on the wireless keyboard/touchpad device to control laptop

Logging on to Laptop

Username: **communityguest**

Password: **Eagle2014**

Guest Wireless

A guest wireless network is available for to connect personal devices.

- Look for a Wireless network named “Centennial Guest” and connect to it
- You will need to accept the “Internet Acceptable Use Policy” before internet access is given

After Your Meeting

As a courtesy, please return the room to its original condition and configuration for the next user.

- Log off the computer and turn off keyboard/touchpad device
- Turn off the television
- Remove all food/drink
- Push in all seats
- Wipe down tables
