

Centennial's Vision:

The City of Centennial is dedicated to providing a high quality of life, delivering superior customer service, and achieving the highest professional standards. We strive to uphold our mission by adhering to our organizational values.

Code Compliance Mission:

The Code Compliance Division promotes a desirable living and working environment through the enforcement of codes to protect property values and quality of life. In a proactive manner, the Code Compliance Division seeks to partner with residents, neighborhood organizations, businesses, public agencies and other City departments to enhance the understanding of local regulations and, in doing so, foster civic pride.

Code Compliance Strategic Goals (OVOV Centennial 2030 Alignment)

Enforce Regulations - Code Compliance will seek to resolve violations through voluntary compliance. In the absence of cooperation, Code Compliance will pursue other remedies to achieve compliance. (EH 7)

Education - Code Compliance will seek to explain the purpose of regulations to foster community support and help identify solutions in an effort to assist individuals with voluntary compliance. (CQL 6.1; CQL 6.4)

Enhance Regulations - Code Compliance will seek to proactively identify regulatory enhancements to address local issues and to recommend tailored solutions that fit the expectations of the community. (CS 5.3; CQL 4)

Efficient and Effective Service - Code Compliance will maintain an accountable, transparent, responsive, and fiscally responsible division by tracking and meeting performance measurements and improving business processes. (CS 3, 3.2; EH 1, 1.2, 3.2; Env. 2)

Customer Service - Code Compliance will interact with all customers in a respectful, responsive, accountable and trustworthy manner to achieve customer satisfaction. (CS 3, 3.6; CQL 6.5)

Survey Says...

The 2010 Centennial Citizen Survey provided residents the opportunity to rate the quality of life in the City, as well as the service delivery and overall workings of local government. The survey also permitted residents to provide feedback to the City on what is working well and what is not.

In the Citizen Survey, when asked which method of enforcing City codes best reflected their opinion, the majority of respondents (58%) felt that the City should enforce codes through a combined approach of actively seeking to identify violations and responding to complaints.

Note: In 2012 the number of inquiries is defined as all calls and work requests from the call center as well as all phone calls and electronic mail to and from code compliance staff. Prior to 2012, the call and the resulting case were counted as separate inquiries.

Despite the change in definition, Code Compliance is largely seeing a similar trend in inquiries compared to previous years.

Opened Cases by Initiation Type

Note: *Due to the Code Compliance Division's effort to facilitate a smooth conversion to a new contract provider beginning January 1, 2012, a reduced number of cases were initiated in November and December 2011.

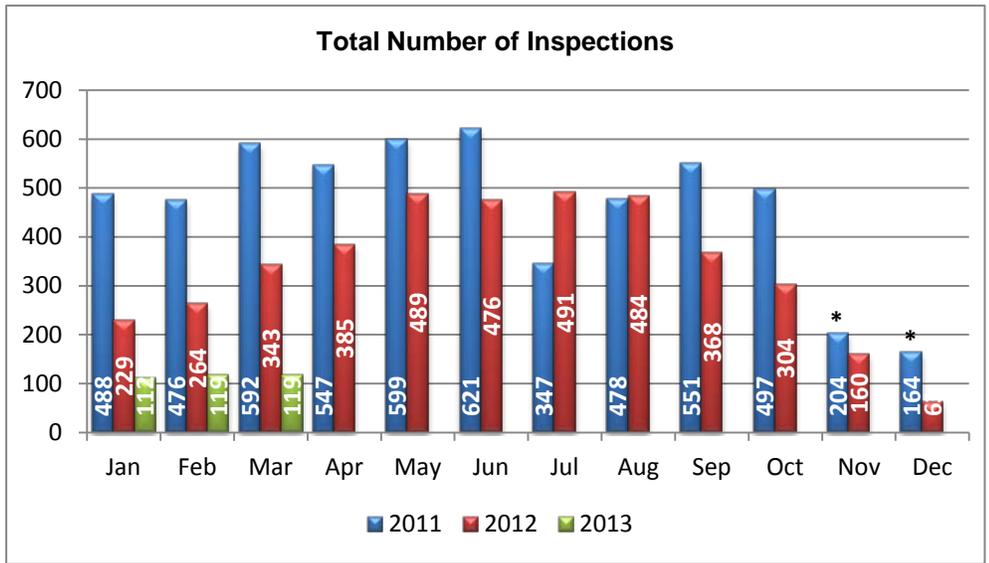

In Quarter 1 2013, 65% of cases were initiated by citizens and 35% of cases by officers.

Notes: If a property has a code violation for more than seven days after a friendly reminder, the officer may send out a Notice and Demand to the owner. It is the practice of the Code Compliance Division to use a graduated enforcement process with property owners before issuing a Notice and Demand. If after an additional inspection after a Notice and Demand is issued the property is still not in compliance, the City may issue a summons to court. For failure to correct the violation(s), a resident or business may be subject to fines of up to \$1,000 per day per violation.

Notes: *Due to the Code Compliance Division's effort to facilitate a smooth conversion to a new contract provider beginning January 1, 2012, there was a reduction in the number of inspections in November and December 2011.

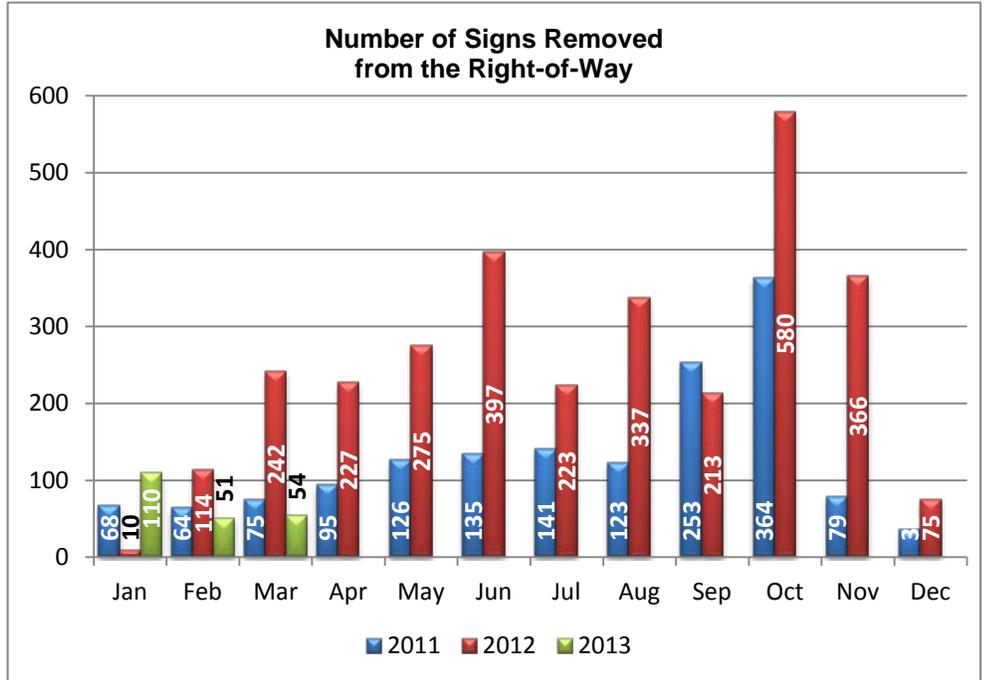

As of July 1, 2012, cases are associated with parcels. Previously, cases were associated with violations. This change has resulted in a decline of initial inspections.

Notes: Political elections increased the number of right-of-way (ROW) sign violations in 2012.

The current Code Compliance contract requires an average of 15 hours be dedicated to right-of-way sign removal.

Notes: 2012 data for Cartegraph Other includes mobility testing. Total hours dedicated to Cartegraph will be greater than other years as full mobility is implemented.
