

This is a friendly reminder to make sure your property complies with recent amendments to the Centennial Municipal Code. Please ensure you can check the following boxes:

### **Hazardous Trees**

You have removed any trees from your property that are dead, broken, diseased, infested by insects, or considered a potential threat or hazard to people, property or other vegetation if it were to fall.

### **Junk or Inoperable Vehicles**

Any junk or inoperable vehicles you may own are not parked or stored on any part of your private property (including rear and side yards), unless they are screened from view by a solid fence or enclosed within a structure.

### **Outdoor Storage (Stockpiling)**

Your property is free of junk, debris, garbage, scrap, tires, inoperable equipment and other stockpiled items. These materials are not stored on any part of your private property (including rear and side yards), unless they are enclosed within a structure.

### **Refuse Containers**

Your garbage cans have lids and have been placed for no longer than 24 hours in the public street, not on the sidewalk, to accommodate trash removal. Garbage cans are stored in areas not visible from the street.
